ACHIEVEMENTS

Voted Class President of my Computer Science class in college.

ABOUT ME

I am a highly motivated software developer seeking a challenging role in web or software development where my education and experience will add significant value. I am accomplished in creative development, web design, and project management. Excellent JavaScript, React, HTML, CSS, and communication skills.

EDUCATION

• **University of Michigan 2020-2021**

I studied CSS, JavaScript, JQuery, and JSON which enabled me to create and design web and mobile applications

• **Digital Marketing Institute 2017-2018**

At the Digital Marketing Institute, I got an in-depth look at the process of digital marketing through PPC, SEO, email marketing, social media marketing and brand awareness.

EXPERIENCE

• **Activision 2016 - Work Experience**

At Activision, I worked alongside lab tech's overseeing software testing and hardware builds.

• **Linked 2017-2019 - Internship**

While working at Linked I got hands-on experience as a web developer and digital marketer. I developed websites for clients and was a point of contact for any development queries. I advanced to train in a managerial role in web development.

• **Elite Design 2020-2022**

I owned a web design company from 2020-2022 where I worked as a software developer front and back end.
